Re: Update for Residents and Family

Dear Residents and Families,

We are pleased to provide a brief update regarding the enhanced surveillance status of Chalmers Lodge.

Since our last update, there have been no new Covid-19 positive test results for either residents or staff. We are continuing to monitor all staff and residents closely. If a staff member or resident has any symptoms they are immediately tested..

A meeting is scheduled with our Medical Health Officer on December 7th to discuss the timeline for lifting our enhanced surveillance protocols. We look forward to providing an update after the meeting.

We sincerely appreciate the many supportive comments and gestures that we have received from residents and families during this time. It has helped us all to know we have your full support.
